FamilyNexus test report

Master test plan TP-FN-001 v1.5 @ 7159ddc · iPhone 15 simulator (iOS 27.0) + macOS · run of 27 October 2026, ca. 20:40–23:25 · date part “1027”

96	5	3	0	104
passed	with finding / partial	not run	failed	steps in report

Overall verdict: not accepted (incomplete). The run covered preparation, sections A to F and G-01 to G-03 on iPhone simulator and Mac. **Follow-up run 28 Oct (00:00):** B-01, B-17 to B-21, E-05, E-12, E-17 and G-04 were done afterwards with a new account (1027b, deleted again). **G-06** followed on 28 Oct (iOS notes against the test server; the matrix.org browser parts are not covered). V-07 noted on 28 Oct. **Still not run:** D-07, G-07, G-08 and the image attachment of E-17. There are no failed steps; four findings are filed as issues #43 to #46. **Update after the run:** #44 to #46 are fixed in PR #52 (not yet verified in a build); #43 could not be reproduced and stays open; “Anna” in #44 was an input artefact. G-06 is only done against the test server, the sign-in at matrix.org belongs to #15.

Platform and system (plan section 2)

Item	G1 (device 1)	G2 (device 2)
Platform	iOS (iPhone simulator)	macOS
Device	iPhone 15 Test in the simulator (Device Hub)	Mac, window 800 × 632 pt
Operating system	iOS 27.0	macOS 27.2
Installation source	Build from main (7159ddc)	flutter build macos --release from main, started from build/ (the build in /Applications is 16)
App version target / actual	1.2.1 (17) / 1.2.1 (17)	1.2.1 (17) / 1.2.1 (16) in /Applications -> built 1.2.1 (17)
Device language, screen lock	German / no device lock in the simulator	German / not checked
Screenshots	xcrun simctl io booted screenshot	screencapture -R (window)
Tester	Claude Code (operation by mouse/keyboard events and screenshots). Passwords and emergency keys are masked; all accounts are synthetic test data.	

Deviation from the Apple run: the plan asks for G1 = iPhone and G2 = Mac, which is what was done (iPhone as simulator; a run with a physical iPhone is still open). Sign-in on the Mac used the account created on the simulator, so the two-device steps (C, E) ran across simulator and Mac.

Findings

No.	Severity	Step	Description	Issue
D-1	MEDIUM	D-02	After the moderator rejects a family-code request the applicant keeps seeing “Almost there!”; the message “Your request was rejected” never appeared (#30 was closed, still present in build 17). Follow-up 28 Oct: not reproducible. The server delivers the rejection (checked with two throw-away accounts), and a new E2E test for the family-code path passes locally. Logging of the poll status added; no code change on suspicion. Issue #43 stays open.	#43
A-1	LOW	A-07	The error hint for invalid usernames was cut off with “…” (real, fixed in PR #52: multi-line hint). “Anna” being lowercased was an input artefact: the simulator lost the capital letter, the app already rejects “Anna” (unit test).	#44
E-1	LOW	E-25	Notice “Report sent.” stayed on screen for minutes and covered the settings. Cause: a SnackBar with an action persists in Flutter unless persist is false. Fixed in PR #52, not yet verified in a build.	#45
E-2	LOW	E-21	After switching an appointment to “Private” the open detail page showed “Deleted” (the private copy has a new ID). Fixed in PR #52: the detail page follows the new ID; not yet verified in a build.	#46
I-1	NOTE	B-03, B-12, B-14	Capitals/umlauts partly arrive wrong (“Testnotiz” -> “Restitution”, “Hallo testfamilie”). Cause: the simulator keyboard/script (Shift not applied), not an app defect. No issue filed.	
T-1	TEST ENV.	C-06	Wrong passwords typed by the script triggered the server rate limit (“Too many requests”) for about an hour. Not an app defect.	
T-2	TEST ENV.	F-05	The simulator lost capital letters when typing; the emergency key could only be entered through the clipboard.	

Confirmed fixed in build 17 (earlier findings): #10, #11, #12, #14, #26, #28 (not seen), #31, #34, #35, #36, #38. **#30** was closed but is still reproducible (issue #43). #33 and #37, #39, #40 were only partly or not checked (E-17 attachments and the desktop Enter key were not executed).

End state

N1 `fnt-1027-n1`, N2 `fnt-1027-n12`, I2 `fnt-1027-i2`: deleted (HTTP 403). `fnt-1027-n9` was never created. Registration unchanged (open). Mac app and simulator show “Welcome”. Passwords and keys were removed from the session directory after the run and are not part of this report.

Summary by step

Step	Device	Check	Result
V-01	–	Determine target version	PASSED
V-02	G1, G2	Check installed version	PASSED
V-03	G2	Install the latest version	PASSED

G-08	Web	Web only	NOT RUN

Detailed results with screenshots

V-01 **Determine target version** · – PASSED

Observed: main = origin/main (7159ddc); pubspec.yaml version 1.2.1+17 -> target “1.2.1 (17)”.

V-02 **Check installed version** · G1, G2 PASSED

Observed: G1 (simulator): 1.2.1 (17) = target. G2 (Mac): /Applications/FamilyNexus.app is build 16, not the target -> V-03.

V-03 **Install the latest version** · G2 PASSED

Observed: Built from main with flutter build macos --release (build 17). Started from build/macos/.../Release (not copied to /Applications). Menu shows “Version 1.2.1 (17)”.

V-04 **Delete local data** · G1, G2 PASSED

Observed: Both apps showed “Welcome” after a fresh start (no old data); deleting was not necessary.

Images: V-04-G1

V-05 **Check server** · – PASSED

Observed: /versions returns JSON; register returns flows [m.login.dummy].

V-06 **Usernames free** · – PASSED

Observed: fnt-1027-n1, -n12, -i2, -n9 are free (also 1027b/1027c). Date part “1027”.

V-07 **Note system settings** · G1, G2 PASSED

Observed: G1 (simulator): device language German (de-DE, region de_DE); no device passcode set (the simulator offers none; Face ID was enrolled for B-17); notifications of the app were not allowed beforehand (the “Notifications are blocked” notice appeared on first start, B-02). G2 (Mac, macOS 27.2): language German (de-DE, de_DE); screen lock after 300 s (sysadminctl); notifications not allowed beforehand (same notice on first start). Read with defaults/sysadminctl, no screenshot.

A-01 **Start page** · G1 PASSED

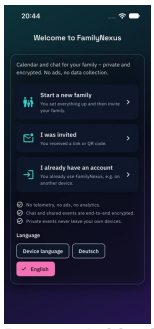

Observed: “Welcome to FamilyNexus” with the three paths, the three notes and the language selector.

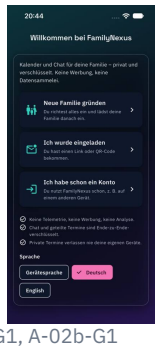

Images: A-01-G1

A-02 **English / German** · G1 PASSED

Observed: Texts switch immediately, no restart. (A first click missed because the layout had shifted.)

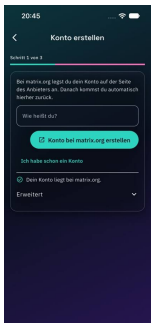

Images: A-02a-G1, A-02b-G1

A-03 **Start a new family, provider unchanged** · G1 PASSED

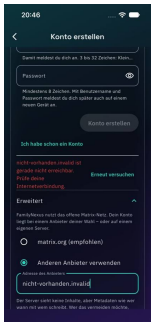

Observed: “Create account”, “Step 1 of 3”, “Your account lives at matrix.org.”

Images: A-03-G1

A-04 **Unreachable provider address** · G1 PASSED

Observed: “nicht-vorhanden.invalid is currently unreachable. Check your internet connection.”; account creation not possible.

Images: A-04-G1

A-05 **Enter test server** · G1 PASSED

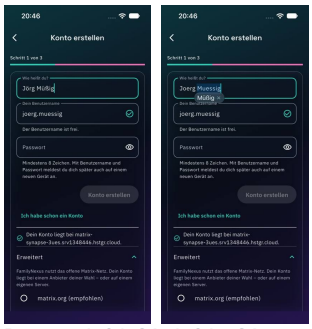

Observed: “Your account lives at matrix-synapse-3ues.srv1348446.hstgr.cloud.”, operator/contact lines, fields with hints; “Create account” greyed out.

Images: A-05-G1

A-06 **Name suggestion** · G1 PASSED

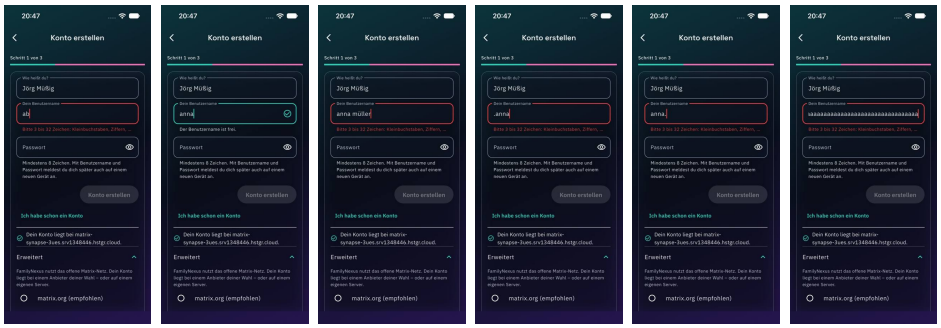

Observed: “Jörg Müßig” -> username “joerg.muessig”, “The username is free.”

Images: A-06-G1, A-06a-G1

A-07 **Invalid usernames** · G1 FINDING

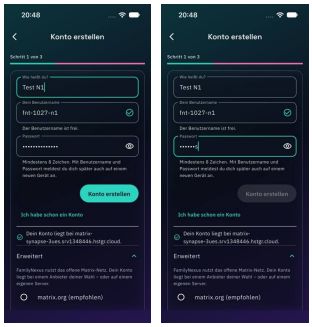

Observed: ab, .anna, anna., “anna müller” and 33×a show the error line “Please 3 to 32 characters: lowercase letters, digits, …”, but the text is cut off with “…”. “Anna” shows no error: the app lowercases it to “anna” and reports it free (plan expects the error). Issue #44.

Images: A-07a-G1, A-07b-G1, A-07c-G1, A-07d-G1, A-07e-G1, A-07f-G1

A-08 **Own username, password, eye icon** · G1 PASSED

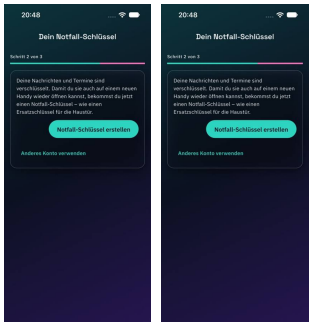

Observed: Username stays fnt-1027-n1 after own input; 7 characters greyed out, 14 active; eye icon works; empty name greyed out.

Images: A-08-G1, A-08a-G1

A-09 **Create N1** · G1 PASSED

Observed: “Create account” -> emergency key page (step 2 of 3) in under 10 s; no extra step.

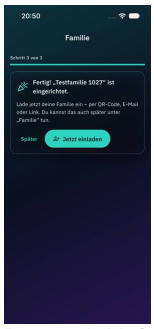

Images: A-09a-G1, A-09b-G1

A-10 **Emergency key, copy, save** · G1 PASSED

Observed: Key stays visible after 20 s (#10 fixed); “Copied. … cleared after a minute”; “Saved.” (file picker “On my iPhone”); “Continue” only after the tick. Key masked in the images.

A-11 **Family name** · G1 PASSED

Observed: “Done! … is set up.” with “Later” and “Invite now”.

Images: A-11-G1

A-12 **Later** · G1 PASSED

Observed: Main view “Today”.

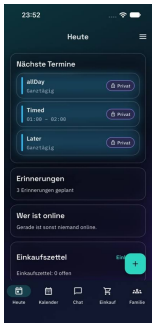

Images: A-12-G1

B-01 **Today view** · G1 PASSED

Observed: Rerun with the new account N1b (1027b): Today lists “allDay” (all day), “Timed” 01:00–02:00 and “Later” (all day, next day) in chronological order; all-day appointments are not placed before earlier days (#33 fixed).

Images: B-01-G1, B-01b-G1

B-02 **Allow notifications** · G1 PASSED

Observed: Notice -> “Allow” -> system dialog -> allowed.

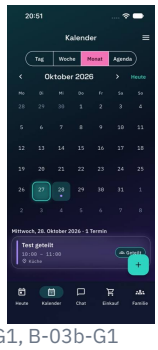

Images: B-02a-G1, B-02b-G1

B-03 **Shared appointment** · G1 FINDING

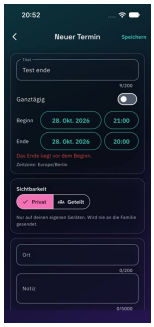

Observed: Visibility starts as “Private”; “Shared” shows the note “Encrypted and sent to the family. …”; location “Küche”, colour purple. The note typed as “Testnotiz” appeared as “Restitution” (input artefact of the script/keyboard, not confirmed as an app defect).

Images: B-03a-G1, B-03b-G1

B-04 **Required fields** · G1 PASSED

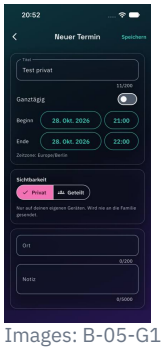

Observed: “Please enter a title.” under the title field; “The end is before the start.” directly under start/end, visible without scrolling (#34 fixed).

Images: B-04-G1, B-04a-G1

B-05 **Private appointment** · G1 PASSED

Observed: Start 21:00 -> end moves to 22:00 the same day; appointment “Private”.

Images: B-05-G1

B-06 **All-day and repetition** · G1 PASSED

Observed: Weekly, 3 occurrences (29 Oct, 5 Nov, 12 Nov), marked as repeating.

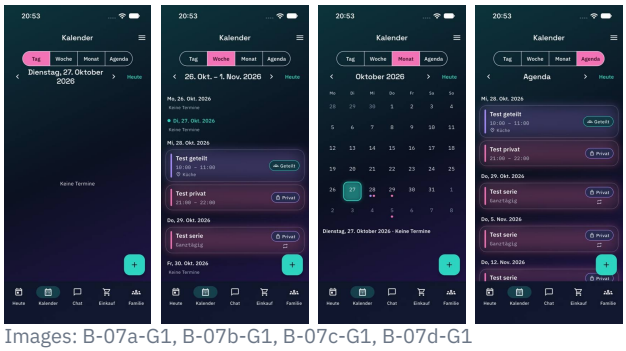

Images: B-06-G1

B-07 Views and navigation · G1

PASSED

Observed: Day, week, month, agenda; back, forward, today work.

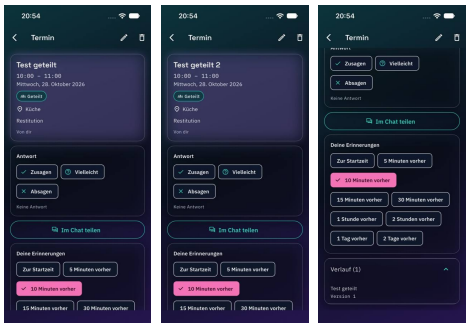

Images: B-07a-G1, B-07b-G1, B-07c-G1, B-07d-G1

B-08 View and edit appointment · G1

PASSED

Observed: Detail with “From you”, location; after renaming “History (1)” shows “Test geteilt – Version 1”.

Images: B-08a-G1, B-08b-G1, B-08c-G1

B-09 Reminder per appointment · G1

PASSED

Observed: Additional reminders (30 min, 2 days) selectable; “Use default” resets to 10 min.

Images: B-09-G1

B-10 Reminder arrives · G1

PASSED

Observed: Appointment 22:20, default 10 min, app in background: at 22:11 system notification “Reminder / Appointment in 10 minutes” without title or place.

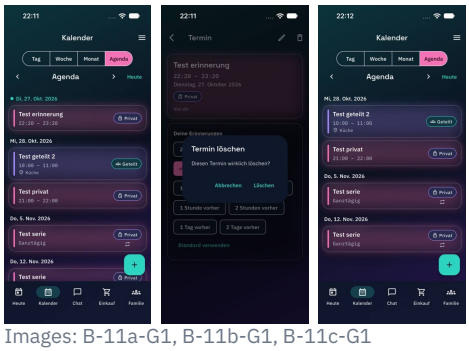

Images: B-10-G1, B-10a-G1, B-10b-G1

B-11 **Delete appointment** · G1

PASSED

Observed: Series: “Delete all occurrences or only this one?” -> only this one; single appointment: “Really delete this appointment?” -> gone.

Images: B-11a-G1, B-11b-G1, B-11c-G1

B-12 **Chat** · G1

PASSED

Observed: “End-to-end encrypted”; message sent with time (shown as “Hallo testfamilie”: script lost a capital). Enter/Shift+Enter is desktop only, not applicable on the phone.

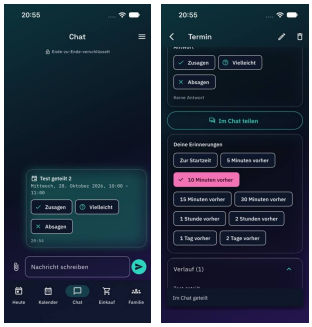

Images: B-12-G1

B-13 **Share appointment in chat** · G1

PASSED

Observed: “Shared in chat”; card “Appointment” with Yes/Maybe/No in the chat.

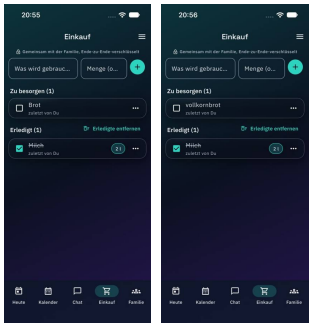

Images: B-13-G1, B-13a-G1

B-14 **Shopping** · G1

PASSED

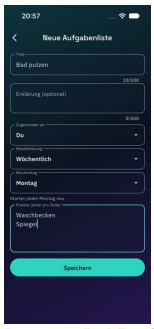

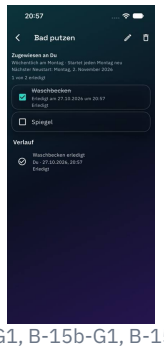

Observed: Milk 2 l, bread; milk ticked under “Done (1)”; bread renamed (shown in lowercase, script artefact); empty entry creates nothing.

Images: B-14a-G1, B-14b-G1

B-15 **Tasks (moderator)** · G1 PASSED

Observed: Empty save shows the error; list “Bad putzen” (assigned to you, weekly, two items); item ticked with comment; “Today” shows “Tasks for you”. Date format checked in E-23 (DD.MM.YYYY).

Images: B-15a-G1, B-15b-G1, B-15c-G1

B-16 **Settings – appearance** · G1 PASSED

Observed: Language, theme, accent colour, reduce effects switch immediately; dark theme persists after an app restart.

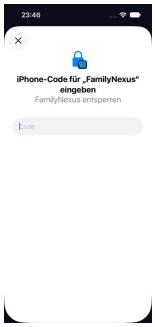

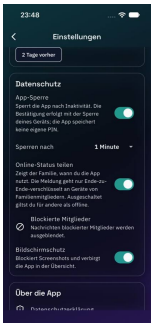

Images: B-16a-G1, B-16b-G1, B-16c-G1

B-17 **App lock** · G1 PASSED

Observed: Simulator with Face ID enrolled: App lock on, “Immediately”; after background and reopen “FamilyNexus is locked” with the Face ID request; “Unauthorized with Face ID” keeps it locked; “Authorized with Face ID” opens the app. Lock switched off again.

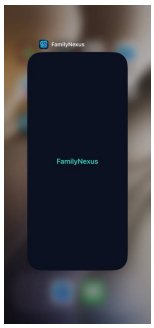

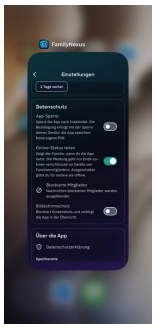

Images: B-17-G1, B-17a-G1, B-17b-G1, B-17c-G1, B-17d-G1, B-17e-G1

B-18 **Screen protection** · G1 PASSED

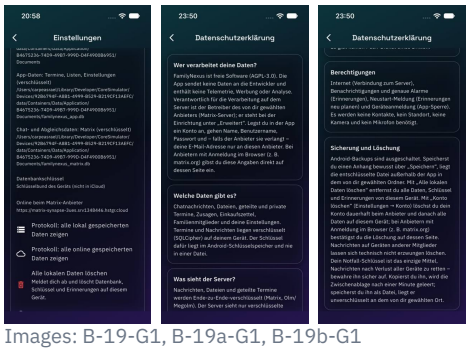

Observed: Screen protection on: the app switcher shows only the placeholder “FamilyNexus” (content hidden). The same placeholder also appeared with the switch off in the first attempt (a tap changed the wrong switch); the off/on comparison is therefore not clean. Screenshots cannot be blocked in the simulator.

Images: B-18a-G1, B-18b-G1

B-19 **Privacy** · G1 PASSED

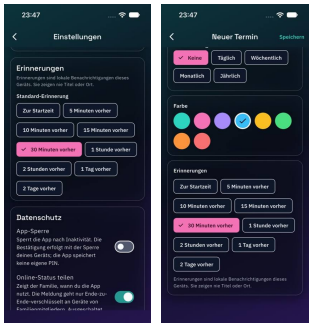

Observed: Settings from “Privacy” to “About” looked at; online status switched in E-15; blocked members shown in E-27 (“You have blocked nobody.”); the privacy policy opened and scrolled.

Images: B-19-G1, B-19a-G1, B-19b-G1

B-20 **Reminders default** · G1 PASSED

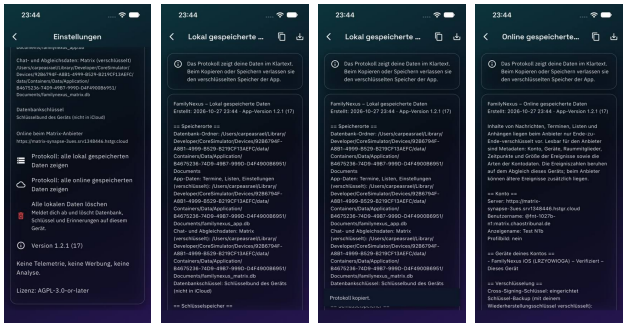

Observed: Default reminder set to 30 minutes (only that entry selected); a new appointment takes “30 minutes before” as its preset. Hint “Reminders are local notifications …” is shown.

Images: B-20a-G1, B-20b-G1

B-21 **About the app** · G1 PASSED

Observed: Local log: app version 1.2.1 (17), appointments, shopping, tasks, display name; plain-text warning; “Copy”; online log shown (account, devices, rooms).

Images: B-21a-G1, B-21b-G1, B-21c-G1, B-21d-G1

B-22 **Version and account** · G1 PASSED

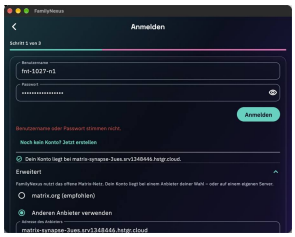

Observed: Menu and settings show “Version 1.2.1 (17)”; account: server = provider address, user @fnt-1027-n1:matrix.chaostribunal.de.

Images: B-22b-G1

C-01 **Wrong password** · G2 PASSED

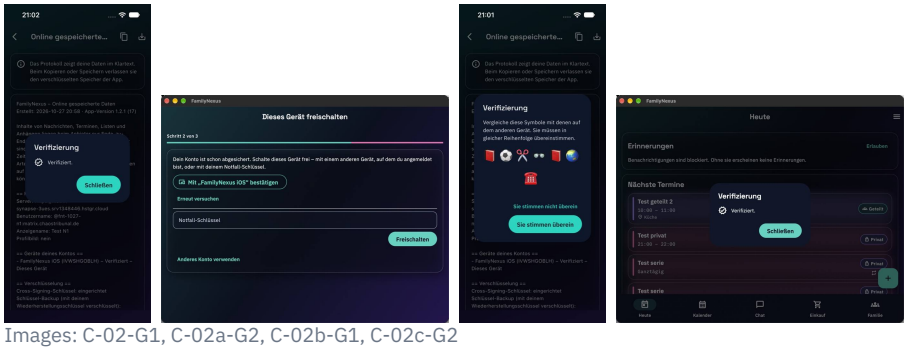

Observed: “Username or password do not match.” (Mac, “FamilyNexus macOS”).

Images: C-01-G2

C-02 **Verify device** · G2, G1 PASSED

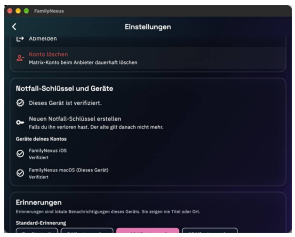

Observed: G1: “… wants to start the verification.” Both show the same seven symbols in the same order; both “Verified.”; G2 opens the main view with the data from B.

Images: C-02-G1, C-02a-G2, C-02b-G1, C-02c-G2

C-03 **Emergency key and devices** · G2 PASSED

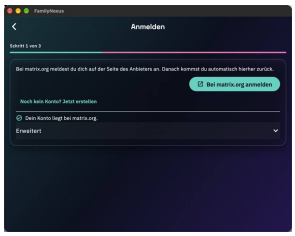

Observed: “This device is verified.”; devices FamilyNexus iOS and FamilyNexus macOS (This device), both verified; “Create new emergency key” present.

Images: C-03-G2

C-04 **Sign out** · G2 PASSED

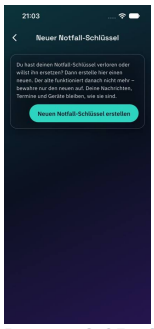

Observed: Sign out -> dialog -> the app shows “Sign in” directly.

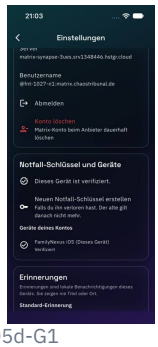

Images: C-04-G2

C-05 **New emergency key (#11)** · G1 PASSED

Observed: New key page, back arrow without effect until tick and “Continue”; key (KN1b) masked.

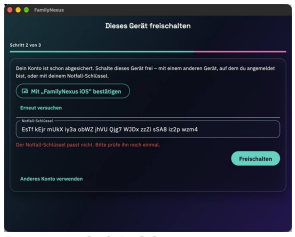

Images: C-05a-G1, C-05c-G1, C-05d-G1

C-06 **Unlock with the old key** · G2 PASSED

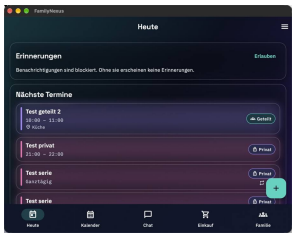

Observed: Login was blocked for about an hour by the server rate limit (“Too many requests”) caused by my wrong script input (test-environment finding T1). Then old key KN1: “The emergency key does not match. Please check it again.” Key masked.

Images: C-06-G2

C-07 **Unlock with the new key** · G2 PASSED

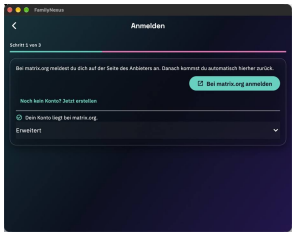

Observed: KN1b -> device unlocked, main view with data from B.

Images: C-07-G2

C-08 **Sign out again** · G2 PASSED

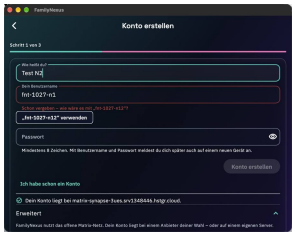

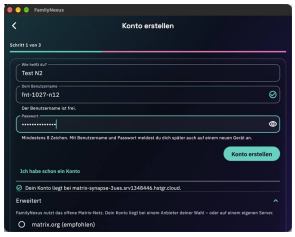

Observed: “Sign in”.

Images: C-08-G2

D-01 **Taken name and suggestion** · G2 PASSED

Observed: “Already taken – how about fnt-1027-n12?”, chip, “The username is free.”; N2 created, key stays, family step appears.

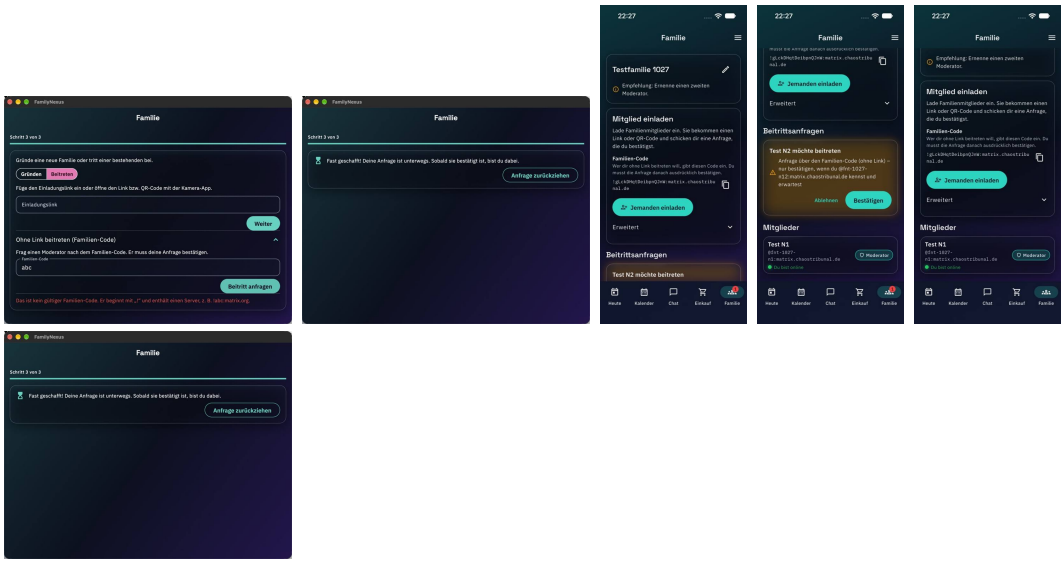

Images: D-01a-G2, D-01b-G2

D-02 **Family code and rejection** · G1, G2

FINDING

Observed: “abc”: “This is not a valid family code. …”; real code: “Almost there! …”. G1 shows the request “via the family code (without link) – only confirm if you know …”; after “Reject” it disappears. G2 still shows “Almost there!” after more than a minute, no “Your request was rejected” (#30 closed but not fixed). Issue #43.

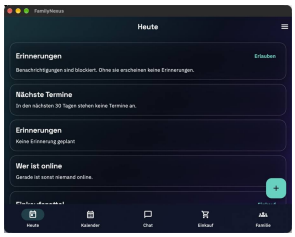

Images: D-02a-G2, D-02b-G2, D-02c-G1, D-02d-G1, D-02e-G1, D-02f-G2

D-03 **Found family F2** · G2

PASSED

Observed: Request withdrawn, “Found” -> family “Loeschtest 1027” -> “Today”.

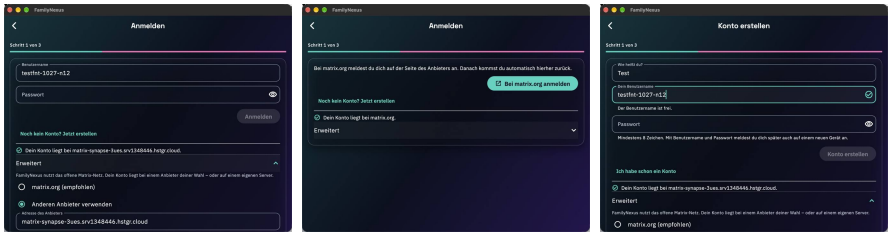

Images: D-03-G2

D-04 **Sign out, pre-filled username** · G2

PASSED

Observed: Switching to “I already have an account” pre-fills the username from account creation.

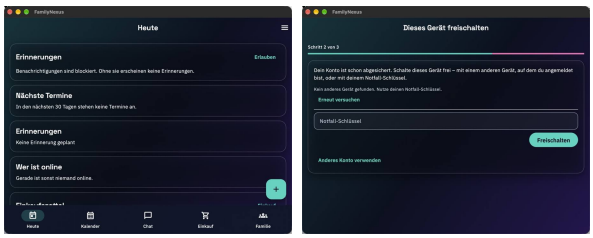

Images: D-04-G2, D-04a-G2, D-04b-G2

D-05 **Sign in N2, unlock with key** · G2

PASSED

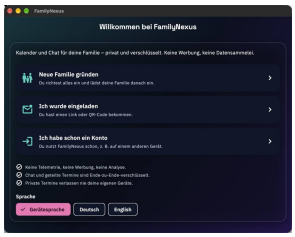

Observed: “No other device found. Use your emergency key.”; KN2 -> unlocked, F2 recognised, no hang.

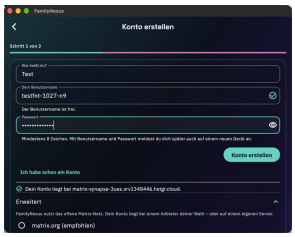

Images: D-05-G2, D-05a-G2

D-06 **Back without creating** · G2 PASSED

Observed: Back arrow -> “Welcome”; fnt-1027-n9 is available.

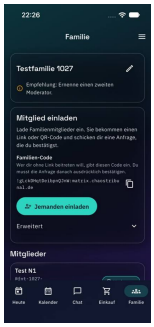

Images: D-06-G2, D-06a-G2

D-07 **Registration disabled** · G1 NOT RUN

Observed: Optional, no server access.

E-01 **Tab “Family”** · G1 PASSED

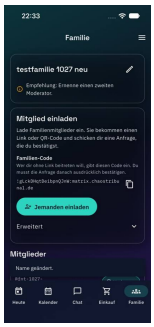

Observed: Name, “Recommendation: appoint a second moderator.”, member Test N1 (moderator), “Invite member”, family code.

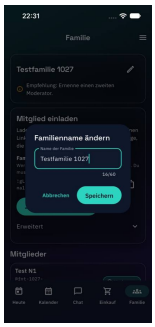

Images: E-01-G1

E-02 **Change family name** · G1 PASSED

Observed: “Name changed.” (shown in lowercase, script artefact).

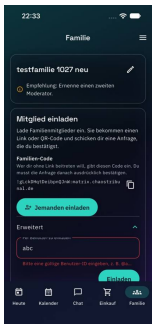

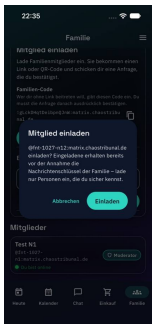

Images: E-02-G1, E-02a-G1

E-03 **Invite by user ID** · G1 PASSED

Observed: “abc”: “Please enter a valid user ID, …”; valid ID: confirmation “… invite? Invited persons receive the message keys before accepting …”; N2 listed as “Invited”.

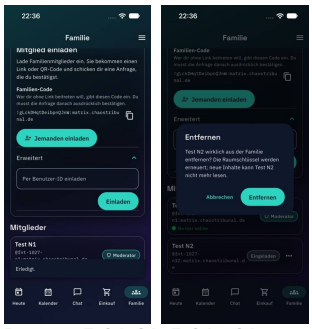

Images: E-03-G1, E-03a-G1, E-03b-G1

E-04 **Remove invited member** · G1

PASSED

Observed: “Really remove Test N2 from the family? …”; N2 disappears.

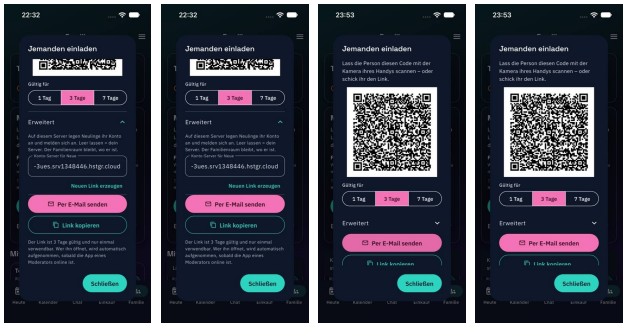

Images: E-04-G1, E-04a-G1

E-05 **Invitation link** · G1

PASSED

Observed: QR code, “Valid for” 1/3/7 days, “Advanced -> account server for new users”, link with srv=matrix-synapse-3ues…, “Link copied”, 3 days, single use. “Send by e-mail”: in the simulator no mail app, a short notice appeared behind the dialog (not readable); the link was copied (checked via the clipboard).

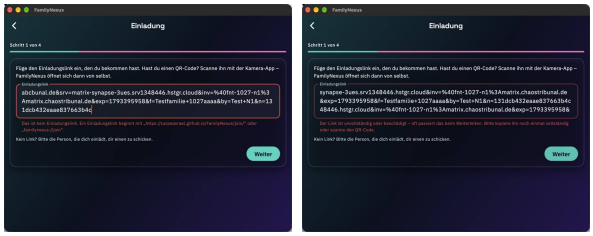

Images: E-05a-G1, E-05b-G1, E-05c-G1, E-05d-G1

E-06 **Invalid and truncated link** · G2

PASSED

Observed: “abc”: “This is not an invitation link. An invitation link starts with https://carpeasrael.github.io/FamilyNexus/join/ or familynexus://join.”; truncated: “The link is incomplete or damaged …”.

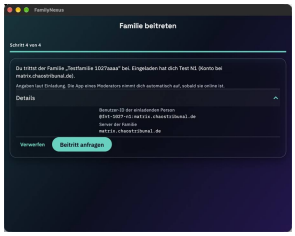

Images: E-06a-G2, E-06b-G2

E-07 **Join card** · G2

PASSED

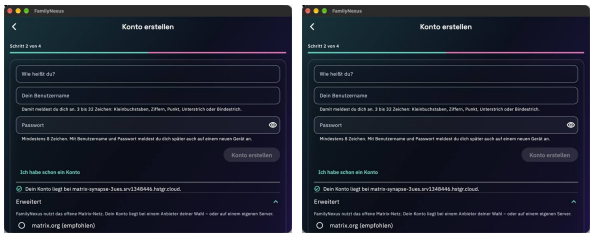

Observed: “You are joining the family “Testfamilie 1027aaaa”. Test N1 invited you (account at matrix.chaostribunal.de).” Link pasted into the field instead of opened by the system (family name from before the rename).

Images: E-07-G2

E-08 **Join -> account creation** · G2 PASSED

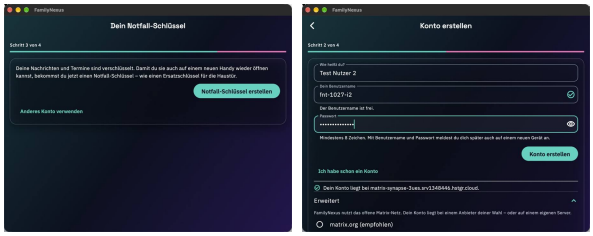

Observed: Provider matrix-synapse-3ues... taken from the link.

Images: E-08-G2, E-08b-G2

E-09 **Create I2** · G2 PASSED

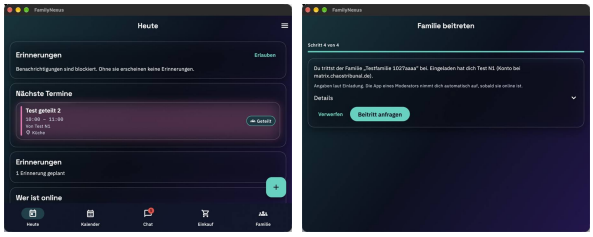

Observed: Account created without extra step, on to the emergency key.

Images: E-09-G2, E-09a-G2

E-10 **Emergency key and join request** · G2 PASSED

Observed: Key stays; “Continue”; card “Step 4 of 4” -> “Request to join”.

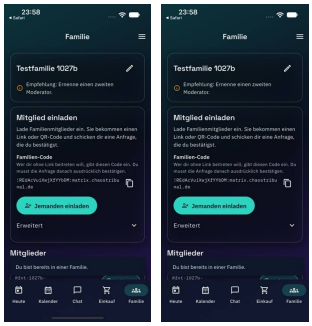

Images: E-10-G2, E-10b-G2

E-11 **Admission** · G1, G2 PASSED

Observed: I2 was admitted automatically in under 10 s; G2 shows “Today” with “Test geteilt 2”.

E-12 **Used link opened by the system** · G2 PASSED

Observed: Used link opened by the system (simulator Safari: “Invitation to FamilyNexus” -> “Open app” -> “Open in FamilyNexus?”): the app shows the short notice “You are already in a family.”; nothing changes. On the Mac the older build in /Applications opened and asked for the keychain password, which was declined (not part of the run).

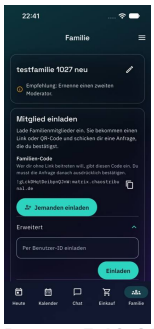

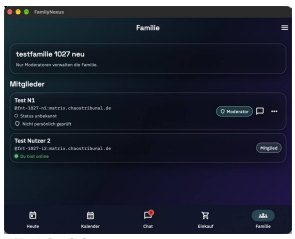

Images: E-12-G1, E-12b-G1

E-13 **Tab “Family” on both** · G1, G2

PASSED

Observed: G2: Test N1 (moderator, “Not personally verified”), Test Nutzer 2 (member); family name also at I2.

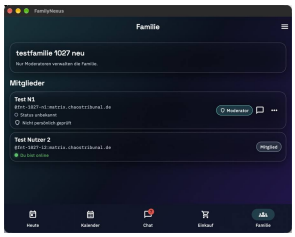

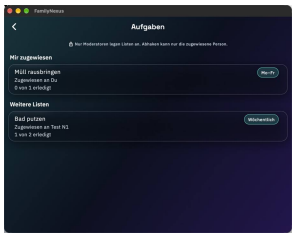

Images: E-13-G1, E-13-G2

E-14 **I2: no management actions** · G2

PASSED

Observed: “Only moderators manage the family.”; no management actions; under Tasks no “New task list” button.

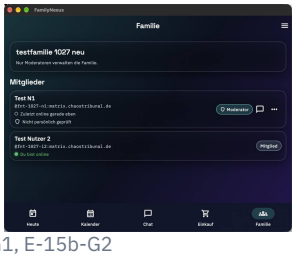

Images: E-14-G2, E-14b-G2

E-15 **Online status** · G1, G2

PASSED

Observed: On: G1 “Test Nutzer 2 – Online”, G2 “You are online”; off (G1): G2 “Test N1 – Last online just now”; on again. The line “Right now nobody else is online.” is not in the images.

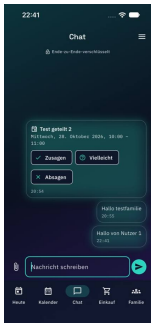

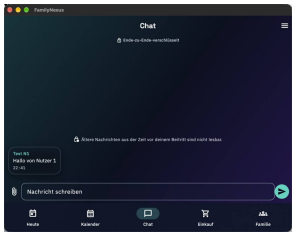

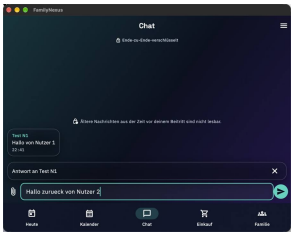

Images: E-15a-G1, E-15b-G2

E-16 **Chat** · G1, G2

PASSED

Observed: G2 sees “Hallo von Nutzer 1” and the single note “Older messages from before you joined cannot be read.” (#35 fixed); reply with reference; thumbs-up reaction visible on both.

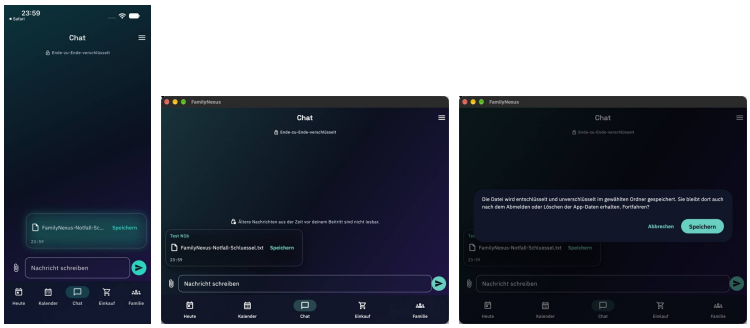

Images: E-16a-G1, E-16b-G2, E-16c-G2, E-16d-G1, E-16e-G1

E-17 **Attachment** · G1, G2 PASSED

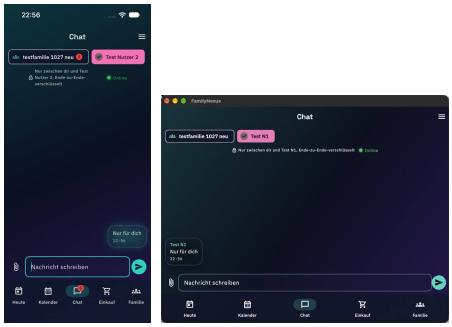

Observed: Simulator sends a text file (“FamilyNexus-Notfall-Schluessel.txt” from the file picker); Mac receives it with “Save”; before saving: “The file is decrypted and stored unencrypted in the chosen folder. …”; cancelled. Image attachment not tested (the file picker offered only the text file).

Images: E-17a-G1, E-17b-G2, E-17c-G2

E-18 **Private chat** · G1, G2 PASSED

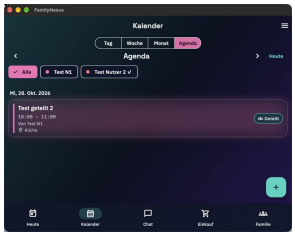

Observed: Header “Only between you and Test Nutzer 2” before sending; at G2 own tab “Test N1” with the message, not in the family chat, no raw verification text.

Images: E-18a-G1, E-18b-G2

E-19 **Appointments and filter** · G2 PASSED

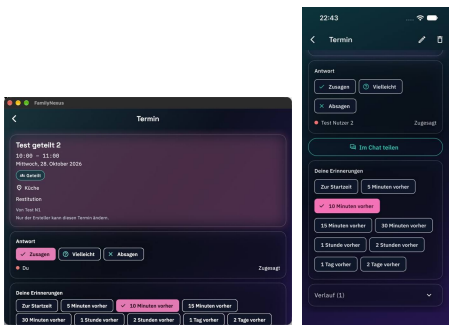

Observed: Agenda shows only “Test geteilt 2”; “Test privat” and “Test serie” (private) not visible.

Images: E-19-G2

E-20 **Accept / decline** · G2, G1 PASSED

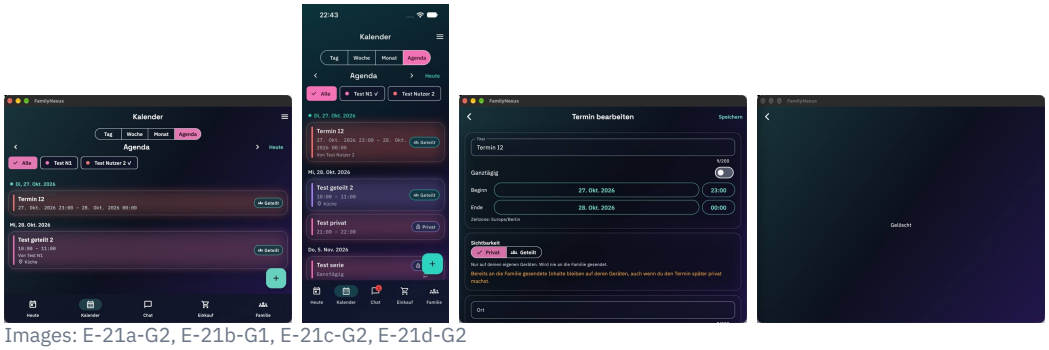

Observed: G2: “Only the creator can change this appointment.”, buttons Yes/Maybe/No; G1 sees “Test Nutzer 2 – Accepted”; “Share in chat” only for G1.

Images: E-20a-G2, E-20b-G1

E-21 **Own appointment of I2** · G2, G1 FINDING

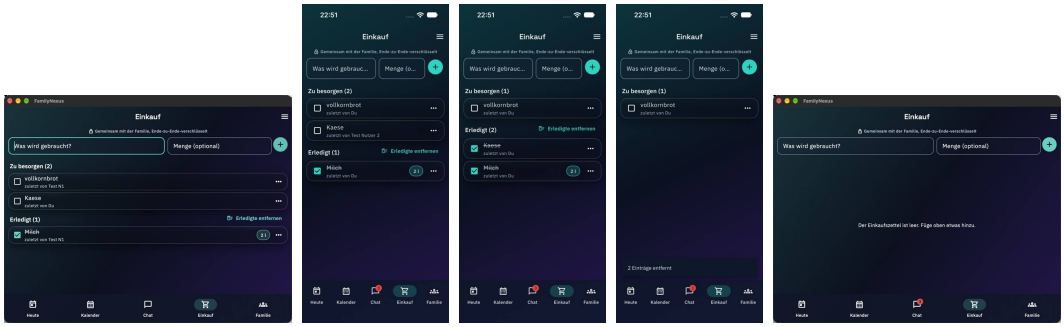

Observed: Shared appointment appears at G1 “From Test Nutzer 2”; switch to “Private” shows “Content already sent to the family stays …”. The still open detail page then shows “Deleted”. Issue #46.

Images: E-21a-G2, E-21b-G1, E-21c-G2, E-21d-G2

E-22 **Shared shopping list** · G2, G1 PASSED

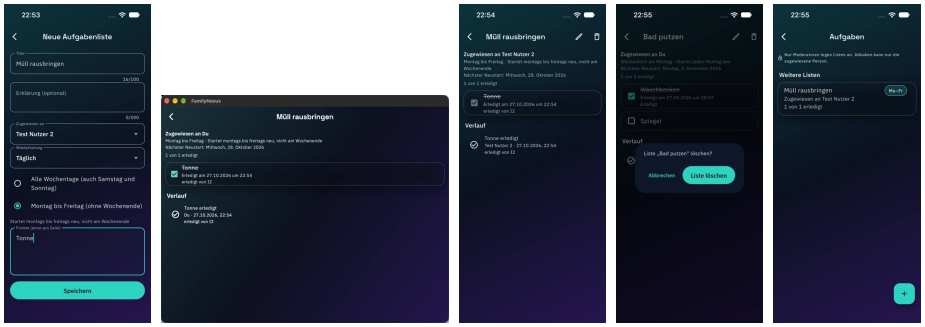

Observed: Cheese created by G2, ticked by G1 (“last by Test Nutzer 2”); “Remove 2 done entries for the whole family?” -> removed; G2 deletes the bread.

Images: E-22a-G2, E-22b-G1, E-22c-G1, E-22d-G1, E-22e-G2

E-23 **Task for I2** · G1, G2 PASSED

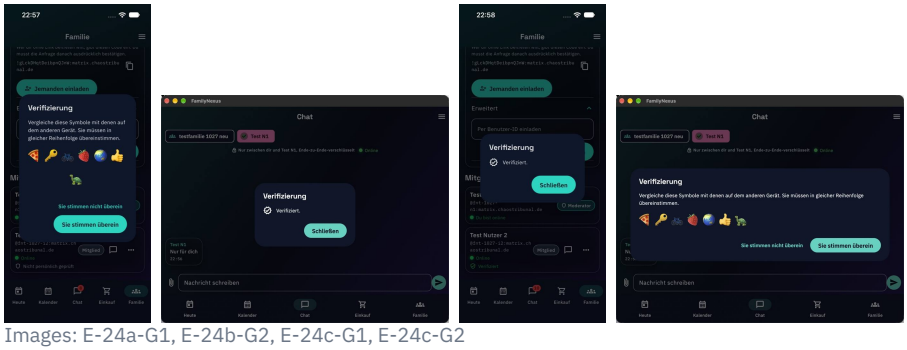

Observed: “Müll rausbringen” (Mon–Fri, one item) ticked by G2 with comment; history “… 27.10.2026, 22:54” (DD.MM.YYYY, #38 fixed); “Bad putzen” deleted.

Images: E-23a-G1, E-23b-G2, E-23c-G1, E-23d-G1, E-23e-G1

E-24 **Verify person** · G1, G2 PASSED

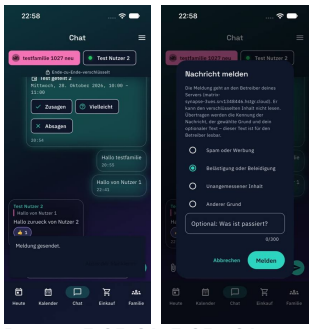

Observed: Same seven symbols on both, both “Verified.”; member list shows “Verified”.

Images: E-24a-G1, E-24b-G2, E-24c-G1, E-24c-G2

E-25 **Report message** · G1 FINDING

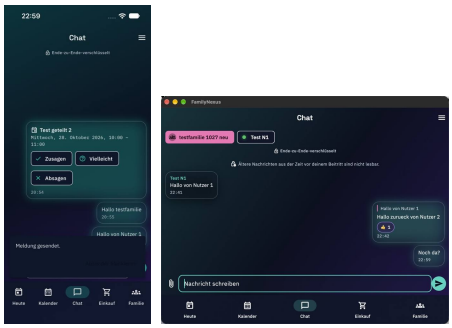

Observed: Dialog with operator note and four reasons; “Report sent.” with the offer “Block sender”. The notice stayed for minutes and covered the settings until the app was restarted. Issue #45.

Images: E-25-G1, E-25a-G1

E-26 **Block** · G1, G2 PASSED

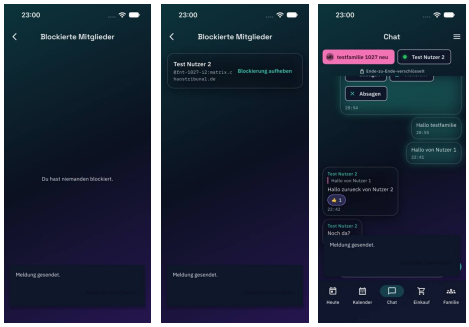

Observed: “Block Test Nutzer 2?” with explanation; G2 sends “Noch da?” without error; at G1 the messages and tab of I2 are hidden.

Images: E-26a-G1, E-26b-G2

E-27 **Unblock** · G1 PASSED

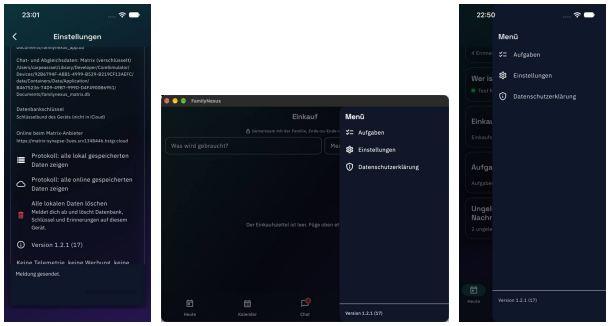

Observed: “Blocked members” -> remove block; “Noch da?” visible again.

Images: E-27-G1, E-27a-G1, E-27b-G1

E-28 **Version** · G1, G2 PASSED

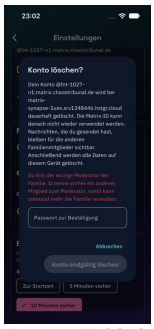

Observed: Both “Version 1.2.1 (17)”.

Images: E-28-G1, E-28-G2, E-28a-G1

E-29 **Only moderator** · G1 PASSED

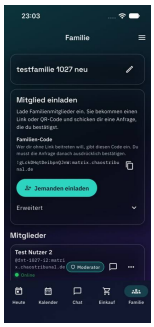

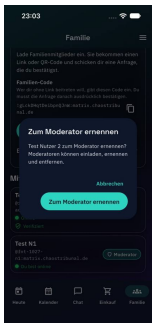

Observed: “Delete account?” with “You are the only moderator of the family. Appoint …” (#12), delete without password inactive; cancel.

Images: E-29-G1

E-30 **Appoint moderator** · G1, G2 PASSED

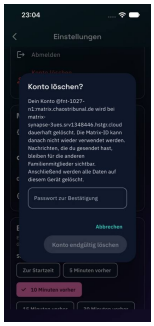

Observed: Confirmation “Appoint Test Nutzer 2 as moderator? …”; badge “Moderator”; the recommendation disappears.

Images: E-30-G1, E-30a-G1

E-31 **Delete account dialog again** · G1 PASSED

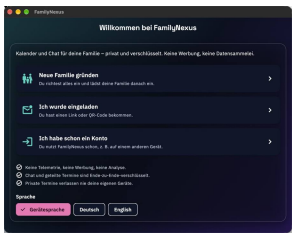

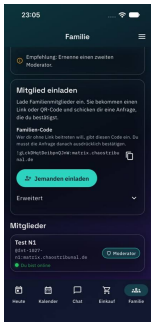

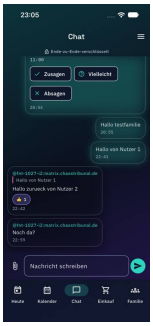

Observed: No longer the “only moderator” note.

Images: E-31-G1

E-32 **Member deletes own account** · G2, G1 PASSED

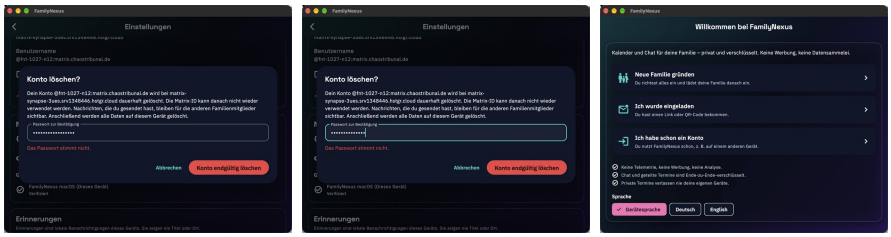

Observed: G2: no moderator note, then “Welcome”; G1: I2 no longer a member, earlier messages stay visible (as user ID); server: fnt-1027-i2 “User ID already taken”.

Images: E-32a-G2, E-32b-G1, E-32c-G1

F-01 **Delete N2 (wrong/right password)** · G2 PASSED

Observed: N2 signed in with KN2 (no “Unknown error”); dialog names @fnt-1027-n12 and server, no moderator note; wrong password: “The password is wrong.” (#36 fixed), dialog stays; right password -> “Welcome”.

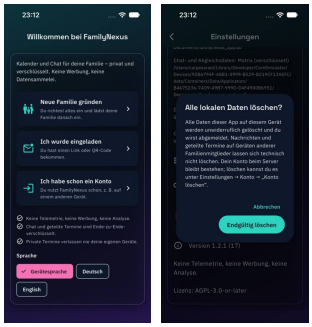

Images: F-01a-G2, F-01b-G2, F-01c-G2

F-02 **Control check N2** · – PASSED

Observed: curl login: 403 M_FORBIDDEN.

F-03 **Delete all local data** · G1 PASSED

Observed: “Delete all local data?” -> “Welcome”; the account stays on the server.

Images: F-03-G1, F-03a-G1

F-04 **Restart** · G1 PASSED

Observed: “Welcome” after restarting the app.

Images: F-04-G1

F-05 **Sign in N1, restore** · G1 PASSED

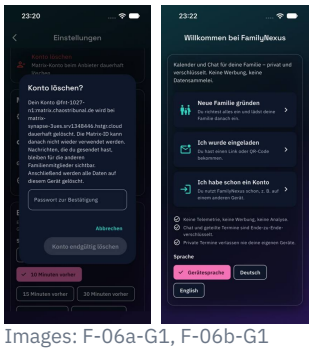

Observed: Signed in, unlocked with KN1b (typing lost capitals in the simulator, key entered via the clipboard); appointments including private ones, chat, shopping, tasks restored.

Images: F-05-G1

F-06 **Delete N1** · G1 PASSED

Observed: No moderator note; (first try: password wrongly typed -> “The password is wrong.”); then “Welcome”.

Images: F-06a-G1, F-06b-G1

F-07 **Control check N1, I2, N2** · – PASSED

Observed: curl login of all three: 403 M_FORBIDDEN.

F-08 **End state** · – PASSED

Observed: fnt-1027-n1, -n12, -i2 deleted (name “taken”), -n9 never created; registration unchanged; both apps show “Welcome”.

G-01 **flutter analyze** · – PASSED

Observed: No issues found.

G-02 **flutter test** · – PASSED

Observed: 744 passed, 48 skipped, 0 failed.

G-03 **review_notes_test.dart** · – PASSED

Observed: 4 passed.

G-04 **E2E (optional)** · – PASSED

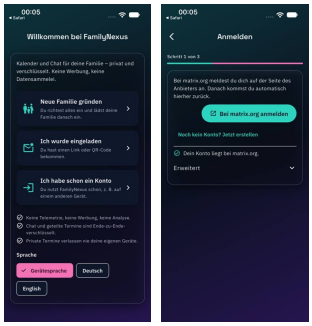

Observed: tool/e2e.sh against a local Synapse (Docker): 39 E2E tests passed, test homeserver removed.

G-05 **Covered by tests** · – PASSED

Observed: Included in G-02 and green.

G-06 **Review notes manually** · G1 PASSED

Observed: Notes (iOS) followed against the test server, not matrix.org (no review account; the plan creates none there). Welcome: all three paths present. “I already have an account” -> “Sign in”, step 1 of 3, button “Sign in at matrix.org” present (not tapped: browser sign-in with the review account is the expected deviation, issue #15). “Unlock this device”, “Unlock”, tabs Today/Calendar/Chat/Shopping/Family, account creation path (“Found a new family”, “What is your name?”, “Create account at matrix.org”, “Create emergency key”, “I have stored the emergency key safely.”, “Next”, “Create family”), notifications “Allow”, report/block via long press, “Blocked members”, deletion under Settings -> Account -> “Delete account” were all run in sections A to F. Not done: the matrix.org browser pages and the deletion confirmation at the provider; the macOS notes (same text, “click” instead of “tap”) were not run separately; review_notes_test.dart (G-03) checks all quoted labels.

Images: G-06a-G1, G-06b-G1

G-07 **Person without prior knowledge** · G1 NOT RUN

Observed: No person available.

G-08 **Web only** · Web NOT RUN

Observed: Not applicable (not the web platform).
